

SCOPE OF SERVICE

Our scope of service is focused on serving the health care professional by offering superior products, and services. Our experience has allowed us to develop long-standing relationships across the country with many health care facilities and their staff. We hold multiple patents for products currently in the marketplace in medical care. Over the years, our professional staff has provided services and product in every facet of health care, from acute clinic care to the surgical operative environment and post-operative care. Our relationships in the medical community, along with an understanding of the current healthcare market trends has allowed us to develop methodologies that benefit the health care provider and their patient population. We assist the provider by listening first, promoting strategies that produce empirical research data that can be translated into a better quality of facility safety, care, and competitive pricing. We understand we do not have all the answers for the health care community. We are developing and working with various companies on how we can provide more effective services and care to the demanding community. In an ever-challenging marketplace, we are committed to building a recognized name in the safety and efficiency health care sector. Our success is dependent upon continued development of products, and a close working relationship with the many decision makers in our industry.
